

DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or render obvious a method for determining the engaged box ratio in a gearbox, wherein the engaged box ratio is determined when there is a change of gearbox ratio by dividing one by the other the values of an engine speed measured just before and just after the change of gear, in combination with the other method steps required by independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
